QUALIFICATIONS

SSI (Structural Steel Integration)

Constructed from robust steel, the cabinet is welded into a single piece both inside and out. This design enhances the cabinet's overall strength, making it more resistant to open and harder to destroy.

3-ways Moving XLarge Bolts

Featuring three-directional steel bolts with a diameter of 28 mm, the mechanism is coated with an anti-rust finish, enhancing the durability around the door. This design effectively prevents prying and bolt-cutting attempts.

CS350 Barrier Material

The cabinet, with a thickness of 65 mm, is filled with CS350, a fire-resistant material capable of withstanding high temperatures and effectively resisting drilling impacts. Its design leaves no gaps for flames to penetrate, thus ensuring confident protection of valuables against fire and theft.

Multi Protection Door

The 85 mm thick door is equipped with fire-resistant and anti-drill materials, reinforced by a 10 mm anti-drill steel plate. It features large, durable hinges and a 15 mm fire-resistant panel on the back, with heat-resistant seals around the edges. This design provides fire protection for up to 45 minutes, complying with the JIS S 1037-1989 standard.

S&G Combination Lock

S&G 3-digit security lock code can be changed up to 1,000,000 numbers. Password certified to international security standards UL Group 2, Vds Class 1, CEN A and A2P A.

8 Lever Key Lock

8-lever key lock, Double Bit Lock type. The key is crafted from a special metal that is strong, durable, and difficult to counterfeit. Certified to safety standards UL 437, Vds Class 1, and CNPP a2p.

Automatic Relock System

The cabinet's automatic relock system, bolstered by safety glass and a secure code, instantly engages upon any external tampering, ensuring the cabinet remains securely locked against unauthorized access.

Drill Protection Alloy Steel

Enhanced strength is achieved with 2 layers of anti-puncture plates made from a specially developed alloy. Protect the entire code mechanism Keys and all points.

High Quality Paint

The cabinet undergoes careful polishing and rust-proofing, with paint meticulously spray-dried in a car oven for a durable, uniform, and glossy finish.
